

To Whom it May Concern-

RE: Habitat for Humanity ReStore in St. George, UT.

Many of you have probably heard of this, but if you haven't let me briefly tell you what it is. Habitat for Humanity is an organization that teams up with volunteers and contractors to build homes around the nation and world for people who can't afford their own at regular cost. This store is in direct association with Habitat for Humanity.

It is strictly non-profit. All of its products are donation only, and they sell them back to the general public for a fraction of the cost that regular hardware stores sell them at. All of the proceeds go to Habitat for Humanity and benefit their building of homes. The store in St. George has been open for about a year now, and is doing quite well. However, they still need the help of volunteers to work there and contractors and businesses to donate goods to them.

That's where you come in. We are trying to get the word out to local businesses and contractors so that more goods can be donated to the store. If you have any products or items that you could donate to the store, it would be greatly appreciated. We're not asking for a one time donation, but more of an ongoing donation any time you have finished a job or have extra supplies lying around. For more information on the store or what items can and can't be donated, please visit [www.StGeorgeReStore.com](http://www.StGeorgeReStore.com).

Also, take a tour of the **ReStore, located at 267 E. 1400 S.** (one block north of Riverside Drive on 270 E). Its a great store and a fun place to look around. If you have any questions, please get back in touch with me. Thanks again, we really appreciate your help.

Anna Lindsey
